Most Probable Landfall Temporary Roofing Model Results

Florida – 7,700

Model results per county on following page

This model is based on a Category 1 storm making landfall in near proximity to Fort Lauderdale, FL.

Information provided on this page displays a Category 1 storm making landfall near Fort Lauderdale, FL. These projections are based on information from the NHC ***(0500 EDT 08/25/2005)*** forecast. The amount of temporary roofing that may be required is based on 3% of housing units damaged in CAT 1 wind area. This only indicates possible need – not necessarily a mission to repair roofs.
